Easy to Configure and Install

QRamp Assembly can be done with common tools and easy connect features, so our ramps can be installed by almost anyone! Our ramps can be configured to fit almost anywhere so it is the perfect solution for both residential and commercial environments. Consumers tell us how easy it was to put together! Each module is boxed individually and with all the hardware required. We even partially pre-assemble it for you to make it as easy as possible!

All you need to assemble a QRamp is:

- 3 sizes of allen keys – 4mm, 5mm, 6mm
- Adjustable wrench
- Tape measure

IT'S THAT EASY!

Modules and Connections

The easiest way to configure a ramp is to use the QRamp Ramp Builder software available at qramp.us or scan the QR code on the next page. Ramp Builder is a fantastic tool that allows you to virtually build your ramp, module by module, to create to your own custom configuration. One of the key features of QRamp is we offer 9 modules that can be arranged in any way – which provide endless configurations to meet your needs now – or even again in the future. Start with an **Entry & Exit** section, **Sloping Section** as your ramp, **Bridges** for distance, **Turn Platforms** for corners, and **Resting Platforms** for straight sections.

CUSTOMERS SAY:

"The ramp not only blends in very nicely with our house but provides the access to my home that I need. We have gotten compliments from friends, neighbors and relatives about how neat and attractive the ramp is. It's also really non-slip and my PSW has said that even when there is dew, it is not slippery at all. I'm moving at the end of the month and the ramp will be easy to take down and move with us."

- Julie J.

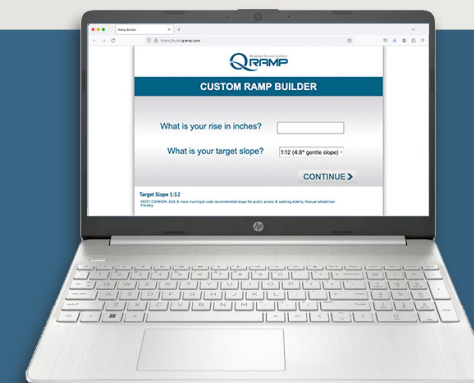

"I needed a ramp soon because winter was fast approaching and with where I live in Ontario the snow was starting to fly. I tried to purchase one through a pretty well advertised company. It took over 6 weeks to get here and when it did, it was damaged. I returned it and called QRamp. I purchased it, had it delivered and installed it myself all within a week. Very pleased with my experience with QRamp."

- Ed K.

Your Safety Matters

That's why QRamp offers multiple guardrail options to provide peace of mind. Whether it's vertical or mid guardrails, we've got you covered. Choose QRamp for accessibility that's built on security.

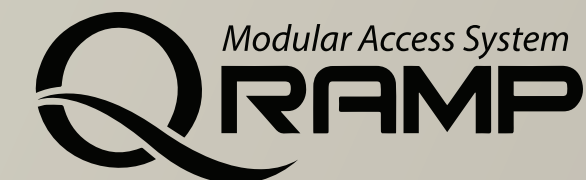

QRamp's quick assembly means you can enjoy easy access right away. It's the ramp that keeps up with your lifestyle. Get your custom modular QRamp design today and experience the difference!
